TEL/WhatsApp: +86 18622096679

NAME: GW-988

SPECIFICATION:

Model	GW-988
Supply voltage	220V50/60HZ
Winding motor	brushless 400W6000RPM
Speed	10000RPM
Wire diameter	0.02~0.25mm
Stranded length	130mm-300mm
Machine weight	60kg
MACHINE SIZE	80*53*1500 px

GREWIN INDUSTRIAL GROUP CO.,LTD.

Add: The fourth floor A-A3 zone aviation business area,Dongli Distr,Tianjin,China.

ADVANTAGES:

1. Digital key navigation operation, one-hand setting, simple and easy to understand, can have four-six axes for choice
2. High-precision cable, high-speed winding,
3. Automatic fault judgment function, setting parameters or errors in operation, automatically prompt misalignment information, can save labor.

FEATURES:

1. The maximum speed of the spindle is 10000rpm.
2. The main engine is oil lubrication, natural circulation cooling, effectively prolonging the service life of the spindle bearing.

The wire crossing system adopts a new structure, and the wire is directly crossed from the spindle guide wheel to the bow belt, minus the scratches and strand jumping caused by the failure of the corner guide wheel on the aluminum disc.

3. The machine is equipped with three pressing devices to ensure the roundness of the conductor after twisting and reduce the loss of insulating materials.
4. The whole machine adopts synchronous belt drive, there is no lubrication point in the machine, keep the machine clean, the stranded wire is free of oil pollution, and it is suitable for the stranding of conductors with high surface cleanliness requirements.
5. The whole machine bearings are made of well-known Japanese brands, the bow belt is made of new materials, good flexibility, to avoid strand jumping caused by vibration when running at high speed, frequency converters, PLC, magnetic powder clutches, electromagnetic brakes, etc. are imported well-known brands to reduce failure rates and maintenance costs.

GREWIN INDUSTRIAL GROUP CO.,LTD.

PRACTICAL APPLICATION :

TRAINING CUSTOMER TO OPERATE WINDING MACHINE :

- 1.All service engineers with 10 years experience are gotten special technology training, who can deal with various breakdown problem.
 - 2.Guide the user to use accurately and how to maintain the product.
- Provide free consultation about production process technology of electronic products.
- 3.In order to guarantee the machine used normally, we'd have training on how to operate, use and maintain our product by English manual, video, guiding on line.

PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.

1. General package (Paper carton or plastic bag): For small equipped parts for Toroidal Transformer Winding Machine, Package it with form and pack paper to guarantee unbroken during the transport.

2. Wooden case package: For larger scale Toroidal Winding machine, we have special skilled carpenter, who would make the proper wooden case with exact thickness, density, length. The up arrow ↑ marked on the outer wooden case. Buffer material would be put in the wooden case to prevent crack and shock.

FACTORY:

We-

GREWIN INDUSTRIAL GROUP is expert in winding machines lines for 28Years. Our Grewin have ISO9001:2015,CE approvals,Machines' Patents,"high-tech enterprises"by the government.
